

Business goes everywhere.
But your information shouldn't.

3M Privacy Filters

Businesses lose millions of dollars a year due to information loss. Choosing 3M™ Privacy Filters can help protect your business from this kind of information theft. Using 3M privacy technology, filters help protect private information, keeping on-screen information from being viewed by onlookers.

3M Privacy Notebook and LCD Filters

- Screen data is only visible to persons directly in front of the monitor. User sees a clear, bright screen with no blurring or image distortion. 3M™ Privacy Filters darken screen data when viewed from the side.
- Frameless notebook filters remain in place even when closed.
- Helps protect your LCD screen from dents, scratches and dings.
- Reduces screen glare for easier, more comfortable viewing.
- One year warranty.

Now you see it, now they don't.

3M Privacy Filters help stem the tide of corporate information loss and identity theft that costs billions every year.

- Companies lost \$53 billion due to identity theft in 2003 (Federal Trade Commission).
- #1 cause of identity theft is theft of employee records (TransUnion, 2002).
- Fortune 1000 companies incurred corporate information loss of more than \$45 billion due to theft of proprietary information (PricewaterhouseCoopers).
- Every year, U.S. company secrets worth an estimated \$250 billion are stolen because of indiscreet business practices (source: survey by the American Society for Industrial Security).
- The FTC tracked 27.3 million cases of identity theft in the last five years alone (Federal Trade Commission).
